Crops are Splendid in the Fort District

SOME MAGNIFICENT YIELDS
ARE REPORTED SO FAR—A
FEW TYPICAL INSTANCES

That Fort Saskatchewan is the centre of a farming district of unparalleled productivity is borne out by the reports of the following farmers, all of whom are the result of this season's crop.

Some of the fields here have been sown for instance, Hugh Brown had 100 acres of spring wheat which went slightly over 40 bushels to the acre, and for which the price was 1.25.

E. Bryson, of Agriola, expects his wheat of 1904, had 20 acres of breaking which yielded 40 bushels of wheat.

Forty acres of oats belonging to C. H. Williams, in the same neighbourhood, averaged 40 bushels to the acre.

Mr. Williams obtained the seed from the Model Farm at Brandon.

There are better crops in this district," was the comment of Mr. Bryson to the Recorder man this week.

The average throughout the district will be about 30 bushels to the acre of wheat, and 40 of oats.

Three Moose Are Brought to Fort

DINNER**

A number of local sports are away in the country just now, hunting for big game, but only three Moose have been brought into the Fort up to

Two of them were secured by S. J. Denlop and L. C. Messenger, of High River, who brought them into the Fort on Saturday night and shipped them to High River. They were shot about sixty miles north-east of the Fort.

The other Moose was bagged by J. M. Griffiths, and was bought by Messrs. McDonald, of the Queen's Hotel.

Local Farmers Decide to Build an Elevator

They are Dissatisfied with Treatment They are Receiving from the Elevator companies

the Town Hall Saturday afternoon, to consider the expediency or desirability of building an elevator at the Fort in the interests of the farmers themselves.

There was not a very large attendance, using probably to the fact that nothing is still in full swing, so less

At the attendance although small, was representative of the district, and there was a very good discussion which at times became quite animated. Among those present were C. E. Huser, F. Benson, Moran, Robt. Hughes, and others. The speaker's statement is only a bluff.

Mr. Nelson: But if we call it bluff they will either have to sell or back down.

The Chairman: If we can only the company organized we can do we like afterwards about buying

Mr. Benson said he had only a handful of what this man and

The meeting was called for two o'clock, but it was three o'clock before the meeting was called to order. Mr. Hughes was called to the chair and he said that Mr. Benson, Mr. Montgomery, Mr. Nelson and himself got talking about the unfair way the farmers were treated by the elevator, and they

to the conclusion that if the farmers would build an elevator and control it themselves it would be very good thing. They did not desire any particular scheme. They thought it would be a good plan to get the farmers together to talk it over, and this meeting had been called.

"We want," continued Mr. Hughes, "more justice than we are getting at the present time. There has been a lot of talk about the farmers not agreeing. That's a lot of nonsense. If the farmers stick together they can agree just the same as anybody else." Mr. Moran then took the floor. He

There were some difficulties about getting them to work together, because they were so numerous and spread over such a large extent of territory, but there was not the slightest doubt that the farmers could be got to

This was a subject upon which they could all unite, but it required some technical skill to bring it into operation. First, they would have to appoint three men to get the company

and organized and registered a joint stock company, they would call a meeting of themselves immediately and offer the stock for sale. When sufficient applications had been received they would meet again and sell the stock. The thing was com-

M. Benson thought that, in view of the small attendance it would be better to adjourn the meeting. Everybody was thankful.

Mr. Bryan, of Princeton, said it would be a good idea to wait a little while and see what the government would do for the farmers. The Madison system worked very well, and they should have something of the kind here.

The farm's new building on the

Everybody also received Government assistance but the farmers, and it was time for the farmers to wake up. It might be a good idea to appoint a deputation and interview the government on the subject.

Mr. Allison mentioned that one of the Elevator Companies in town had made a proposition that they would sell out their elevator at cost, providing the farmers were willing to take over the Government, through the same member, Frank Walker, and what assistance can be obtained in way of a loan for a farmers' elevator. The meeting then adjourned.

TIP A QUEER WORLD
By L.B. O'Leary

You can't believe what some men say even when they are beaten. From men engaged to marry because they have made a fortune. Good resolutions usually die young, but live long enough to make us imagine.

Love your neighbor as yourself—but it doesn't work. Even a kitchen woman has been known to lead a man's life. Her profession has little to do with the kitchen. When you put on your dignity be sure of your footing. The man who looks on his wife as a woman to be drawn is a fool. Some people think they can get on with the infatigable by being mean. When become fatigable to take a honeymoon in an ashtray there will be no falling out.

OUR PLANETARY SYSTEM.

From the nearest fixed star, it
would take 4.2 years to reach it.

It is only when we regard our solar
system as a part of the great
universe that we can appreciate
its insignificance.

The sun will be found, in fact, to be
a small body in the vastness of
space, surrounded by a host of
planets and moons.

We may find that the sun is not
the center of the universe, but
that it is only one of many
stars, each with its own system
of planets and moons.

FORT SASKATCHEWAN, ALBERTA

A Pleasing Statement.

The monthly statement of the Canadian chartered bank, just issued by the financial department at Ottawa, giving their condition on January 31 last, shows a condition in several items, but the figures are such as to warrant a contemplation of business activity and expansion all over the Dominion. A scrutiny of the statement will show that some circulation during the month was reduced from \$102,007.95 in December to \$88,085.92 on January 31, reflecting the increased demand for the time being for currency, following the extreme tension demanded by the removal of the harvest and the more than ever active holiday trade. On the other hand, savings bank deposits increased from \$99,100,881 to \$106,080,380, while demand deposits declined from \$336,030,085 to \$318,886,962, showing a shrinkage in total deposits in Canada. Commercial loans, which are usually limited during the early months of each year, show a small increase for January, amounting to \$778,078,865, as compared with \$774,009,172 on December 31 last. Liabilities amounted to \$778,078,865, as compared with \$774,009,172 on December 31 last. Liabilities amounted to \$1,174,382,481 for the previous month. Call loans, which are in large volume as the preceding months, which are accounted for by the quiescent condition of stock taking in all regions of trade and commerce. In short, the statement brings out the pleasing fact that Canada is well off from a monetary point of view, while the banks are steadily meeting all the requirements of the government.

proceeded to carry out his promise. Commissioner Driver believed his name, for spectators say that within a few minutes the judge had made the punishment fit the crime. Then, putting on his coat again, the judge returned to the court room, took the seat on the bench, took himself for common assault, and called the next case.

The simplicity and effectiveness of the democratic institutions of Texas would satisfy even a Thomas Jefferson.

Movement in Favor of Union will Fail

Toronto, March 2.—That the sense of the Presbyterian, Methodist and Episcopal churches of the Dominion will not be brought about by the present campaign is almost certainly the opinion formed by the delegates to the annual meeting of the Methodist and their officials are satisfied that the Presbyterian are not likely to be won over to the union cause. The delegates of the Methodist churches of the Dominion will not be brought about by the present campaign is almost certainly the opinion formed by the delegates to the annual meeting of the Methodist and their officials are satisfied that the Presbyterian are not likely to be won over to the union cause.

From present indications Ontario Presbyterians will about split over the union question. The Presbyterian general assembly will give the matter serious consideration, but it is not probable that the majority will be in favor of the union. It is not probable that the majority will be in favor of the union. It is not probable that the majority will be in favor of the union.

Million Miners Go Strike in Great Britain

London, March 6.—The miners' strike in Great Britain has now entered its fourth week. The miners' union has declared that it will continue the strike until its demands are met. The government has offered a compromise, but the miners have refused it. The strike has caused a serious shortage of coal in the country.

Causes for Alarm

Causes for alarm are many. The government has offered a compromise, but the miners have refused it. The strike has caused a serious shortage of coal in the country.

CHAPTER I

An Unexpected Meeting

On the way to the office, I was

starting in my car when I

noticed a man in a dark

coat and a light-colored

hat, walking towards me.

He was very tall and

lean, with a strong

build and a determined

expression on his face.

I had never seen him

before, but he seemed

to know me. He

stopped and looked at

me for a moment.

I felt a little

nervous, but I

continued on my way.

He followed me for

a few feet and then

spoke to me.

I stopped and

looked at him.

He said, "I

have seen you

before, but I don't

know your name."

I told him my

name and he

said, "I am

very glad to

meet you."

He then

asked me if I

was going to

the office.

I told him

yes and he

said, "I will

be waiting for

you."

I

continued on

my way, but

I felt a little

nervous.

He

followed me

for a few

feet and then

spoke to me.

I

stopped and

looked at him.

He said, "I

have seen you

before, but I

don't know

your name."

I

told him my

FIRST MANKETTS HERMAN ATTENDS THE OILMAN MARCH 1961

Let us celebrate the 24th, as heretofore, in truly royal style. Do not change the date.

Local option has very little to recommend it. It does not go to the root of the trouble. Stop the manufacture and you stop all the attendant evils of the drink traffic. But what is the use of merely abolishing the bar, the while any Tom, Dick or Harry can ship in all kinds of liquor for his own or other peoples' consumption? It is an anomaly which has never been satisfactorily answered.

Local option, moreover, would be a laughable farce in Fort Saskatchewan. Close up the two local hotels, and the Lamoureux hotel would be running full blast. Could you devise a more ludicrous situation?

FOR FORT SASKATCHEWAN, ALBERTA, THURSDAY, APRIL 18, 1912

Vote for the By-Law.

Tomorrow (Friday) the ratepayers will vote upon the by-law authorizing the council to issue debentures for the sum of \$20,000 in order to pay for indebtedness already incurred in connection with the hydro-electric plant.

Not a single argument has been advanced in opposition to the by-law. There have been rumors, vague and indefinite, that some kind of opposition would be offered, but up to the present time no person has come out, in the open and thrown down the gauntlet. If there had been opposing arguments of any importance, we would surely have heard of them.

The credit and the good name of the town is at stake. We must either pay the debt honorably, just the same as any honest business man would pay his debts, or take the consequences, and EVERYBODY KNOWS BY THIS TIME WHAT THOSE CONSEQUENCES WILL BE.

Let everybody with a well-meaning interest in the town's affairs get out and rattle votes for the by-law. Not a single vote for the by-law should be left behind.

The by-law ought to be carried by one of the biggest majorities ever known in Fort Saskatchewan. It is up to all of us to see that this done.

DUTY TO THE FORESTS

CANADA IS PAID BY A GREAT RESPONSIBILITY.

Recent Report of Forestry Branch of the Department of the Interior shows that of Canada's Forest Area about 100,000,000 acres are under the control of the Government.

In the Canadian West, where the forest is so abundant, it is not only a source of wealth, but it is also a source of life. The forest is the lifeblood of the West, and it is the duty of the Government to protect it. The forest is the source of our timber, and it is the source of our food. The forest is the source of our life, and it is the duty of the Government to protect it.

Railway Centre.

The crops look fine around here, and rain now and then makes them look better.

Mr. Gatter has been teaching for Mr. Kennedy of this. Will have with a ball next year, you bet.

Conservable road work is being done around here this year. Well, we need it, the more the better.

Basket seems to be quite forgotten this year. What's the matter, boys? They're not like the girls? Get busy.

People would like to know why it is that the natives along the Victoria road are in such a wretched condition.

A week ago last Saturday was the rain that followed it a considerable amount of good.

John Stanford, the lucky Englishman, caught two little robbers the other day while walking through the woods. Good for you, Jack. The them up well and don't let them get away.

Talk about your being going to the Port, but John Collier has them all at home with him.

There was a good attendance at church last Sunday, but there was more for many. Everybody welcome.

People are coming into this locality from the four corners of the globe. It is long on the way we shall have an extraordinary number of nationalities - especially from colored folk to a day.

Star Swivel Sling Hay Carriers

If you want to save time in handling your hay crop this year, let us install one of our Swivel Sling Hay Carriers. They will handle fine or coarse hay, shaves, etc., taking the load up clean from the rack, which is a great time-saver when our hay season is over. Our O.K. Centre Trip Sling can be adjusted to fit any size Hay Rack. Examine our stock of Hay Forks, Grass Scythes and Swaths, Hay Rakes, etc. We can save you money.

Local Improvement Districts Association

The Meeting in Edmonton
Expected to Be a Very
Important One.

Edmonton, Alta., Oct. 2.—Question of importance to the rural commu-
nity of the province will be discussed
at the annual meeting of the Local Im-
provement Districts Association of Al-
berta in Edmonton, Oct. 20 and 21,
when it is expected the majority of the
200 members will attend. Mr. Mason,
of the Assn., head of the organization,
will preside.

"A radical change is being effected
throughout the province in the system
of self-government," said Mr. Mason,
"named by the last Legislature, when the
Rural Municipality Act was adopted.
This means that a large number
of local improvement districts will
be converted into rural municipalities
having taxing power, and will be able
to raise money for improvements and
other purposes."

"A provision in the act providing for
a rebate of 25 per cent. of the taxes
paid on improved lands. This will
force non-resident speculators holding
raw land to either improve it, or the
Government has announced the inten-
tion of increasing the rebate to 50 per
cent."

The name of the association will prob-
ably be changed, with the advent of
the rural municipality act.

The Executive Committee will ad-
dress suggested amendments to the
Local Municipality Act.

Secretary Jas. McInnis, of Hinton,
Alta., has charge of the program.
Discussing the action of the people
in the area northwest of Edmonton,
who voted against organization, Mr.
Mason said there are 15,000 subdivisions
in the district, now paying 25 cents
a year, whereas under the
terms of the Rural Municipality Act
they would be called upon to pay eight
times that amount.

Sale of Purebred Shorthorns

A sale of Purebred Shorthorns, com-
posed of a mixed lot of cows, heifers,
and bulls, about 40 in number, will
be sold in Vermilion about the second
week in May 1913.

The lot held last, "Pure Breds,"
was bred in Aberdeen, Scotland, and
the cows are chiefly Dakota land.

This will be an important auction-
ing sale for farmers to obtain the best
Shorthorn blood in the country.

Watch for posters and further an-
nouncement.

GORDON & DUBUC HARDWARE PENINSULAR

THE MONARCH PENINSULAR is a
steel stage — the easy-to-clean
kind.

It has a large square oven, twenty inches both
ways — just right for four pies. The oven is made
of quick radiating steel and will heat up as soon
as a fire is started. It has a drop oven door,
strongly made. The first-best is of iron.
It is deep and has upright sides, which
expose the sole in the most convenient shape. It is
cleaned out with perfect degree grace. These great
